Maram Sultan
Interior Design

CAREER PROFILE

A ***second year 3D design: interior designer undergraduate*** student with strong communication skills as well as fluency in two languages (English and Arabic.) looking for a good degree to enhance my skills and improve my knowledge. I am a loyal and trust worthy person, I get things done on time in addition to being highly organized. I am a team and a hard worker. I have ***done 14 projects in total***, the most significant ones included model making. These were designing a Reception Desk for a network provider company, designing an Urban Residential Space, and the Cliff Project; which was to design an object that would make people visit the abandoned river more often.

ADDITTIONAL INFORMATION

- Got my drivers license on the 16th of August 2012
- Experience in different aspects of the design world, getting to know different materials and their purpose
- Great interest in working on design softwares: Sketch Up, AutoCAD, Photoshop, illustrator basics, Adobe Flash basics, and 3D Studio Max basics
- Charity work helped me grow my communication skills and learn to interact with different age groups
- Being organised is one of my main strengths where I get work done in time and do not leave things to the last minute
